1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dennis LaPointe on 12/10/04.

The application has been amended as follows:

1) In claim 8, last but 5th line, " Y is O" is changed to - - Y is CO - -.

2. The following is an examiner's statement of reasons for allowance: The closest prior arts are Lau et al and Tsuchiya et al. Applicants have amended their claims to proviso out compounds fro Lau et al, and have submitted a Declaration which suggests an unexpected result over Tsuchiya et al. Note applicants have compared their compoundI-106 with the closest prior art compound no 75, and it is clear that the instant claimed compound has a higher original concentration of the image and superior light fastness over prior compound. Hence instant claims are patentable over prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
